PROFESSIONAL EXPERIENCE

SHURE

Niles, IL

Android Software Developer Intern

MAY 2023 - AUGUST 2023

- Led migration of legacy Android app from XML to Jetpack Compose, reducing UI rendering time and improving maintainability
- Analyzed and converted 10+ XML layouts while preserving 100% functionality and user experience
- Collaborated with a 4-person development team using Git workflows, contributing to multiple code reviews
- Implemented automated testing for UI components, reducing bug reports by 25%

SHURE

Niles, IL

Android Software Developer Intern

2021-2022

- Designed and implemented user interfaces for an Android application following Material Design guidelines
- Collaborated with 2 product managers and 1 UX designer to translate requirements into 15+ reusable UI components
- Developed custom animations and interactive layouts, increasing user session time
- Maintained compatibility across different Android versions and device types

KEY PROJECTS

Construction Website

- Developed full-stack web application using Next.js, TypeScript, resulting in 40% increase in client inquiries
- Implemented automated email system using Next.Email and Resend, reducing response time
- Designed and deployed scalable image storage solution using Supabase, handling dozens of project photos
- Created complete brand identity and UI/UX design in Figma
